The Star Pont Mine 1st Qtr. 2007 water data is ready to upload to the official database.

Dave, there was no access into Miller Creek on any of the several attempts I made. In late March, after the snow had partially melted it was to muddy. On another issue, the water data base site now shows a water monitoring site at Star Point entitled "Spring - LOWER TIE FORK". This is the first I have seen this site on the data base; it should be removed as it is not a required Star Point Mine water monitoring location.
